% of total injuries	0.5	0.6	0.5	0.6	0.6	0.7	0.8	0.8	0.9	0.9	0.9

¹These totals do not include duplicate cases as originally reported in the Department of Justice, Criminal Justice Statistics Center, MACR data, and as of 2006 the counts for all the years reflect this change.

²These data represent a DMV master file count of the number of DUI abstracts (data received from the courts), by year of violation, minus duplicates. Each year, the DUI conviction totals are updated to include the amended and new abstracts for current and previous years. These additions are also reflected in changes for the percent convicted. These totals do not include conviction abstracts not yet received. Thus, for the most recent years, these figures will underestimate the final conviction totals.

³These figures include overlap with drugs. That is, drugs are also involved in some of these cases.

⁴These figures include overlap with alcohol. That is, alcohol is also involved in some of these cases.
 Beginning with the 2007 report, reporting of drug-involved fatalities is included.

¹The 1997/1998 counts reflect backlogged actions from 1997 that were processed in 1998.

²These totals include suspension actions that are associated with lack of compliance with statutory requirements, and include workload counts.

³This count has increased as a result of the law change, effective 09/20/2005, which assigned to DMV the sole responsibility for imposing license actions for all DUI and removed this responsibility from the courts.

^rRevised from prior reports.
